Dear Mark

RE: OPERATION BULLY

Please be advised that all prosecutions for Operation Bully have now been completed.

There were a total of 17 offenders arrested for various drug dealing offences on the 31 July 2001 which was the termination date of Operation Bully.

I have enclosed a schedule which outlines charges each offender was prosecuted for and sentences received.

I congratulate Warden Consultants Ltd staff for their professionalism, integrity and commitment to Operation Bully. I can truly say it's been a pleasure working with you all.

I want to also thank you Mark, for your patience and support in relation to Operation Bully. The personalities involved on the coal face of this operation definitely made my job much easier and I thank you, Pete, Mark and Barry for that.

I'm sure Operation Bully has managed to carve out some rough guidelines for similar operations.

I wish you well for future ventures and once again it's been a pleasure working with you.

Yours sincerely
